## High Head Pumps

## Specifications:

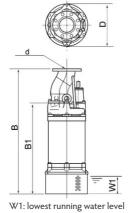

| Model | Colour code curve | Bore mm | Motor output kW | Rated current A | Head max. m | Capacity max.<br> /min | Dry weight kg w/o<br>cable | Max. solid<br>handling ø mm | Pressure<br>resistance max. m | Cable length m |
|-------|-------------------|---------|-----------------|-----------------|-------------|------------------------|----------------------------|-----------------------------|-------------------------------|----------------|
| LH845 | <b>1</b>          | 200     | 45,0            | 81,0            | 50,8        | 5450                   | 510,0                      | 20                          | 30                            | 20             |

| ø Discharge          | bore mm      |                  | 200   |  |  |  |  |  |
|----------------------|--------------|------------------|---|--|--|--|--|--|
| Pumping<br>Fluid     | Temperatur   | re               | 0-40°C  |  |  |  |  |  |
| riuia                | Type of Flui | id               | Spring water, Rain water, Ground water, Sand carrying water |  |  |  |  |  |
| Pump                 | Compo-       | Impeller         | Closed type impeller  |  |  |  |  |  |
|                      | nents        | Shaft Seal       | Double mechanical seal                                      |  |  |  |  |  |
|                      |              | Bearings         | Shielded ball bearings                                      |  |  |  |  |  |
|                      | Material     | Impeller         | Chromium iron casting                                       |  |  |  |  |  |
|                      |              | Casing           | Grey iron casting EN-GJL-200                                |  |  |  |  |  |
|                      |              | Shaft Seal       | Silicon carbide in oil bath                                 |  |  |  |  |  |
| Motor                | Lubrication  |                  | Turbine oil (ISO VG32)                                      |  |  |  |  |  |
|                      | Motor Prote  | ector (built-in) | Miniature protector   |  |  |  |  |  |
|                      | Type, Poles  |                  | Induction motor, 2 poles, IP68                              |  |  |  |  |  |
|                      | Phase / Volt | age              | 3-phase / 400V / 50Hz / s.d.                                |  |  |  |  |  |
|                      | Insulation   |                  | Insulation class F  |  |  |  |  |  |
|                      | Material     | Casing           | Grey iron casting EN-GJL-200                                |  |  |  |  |  |
|                      |              | Shaft            | Stainless steel EN-X30Cr13                                  |  |  |  |  |  |
|                      |              | Cable            | Rubber, NSSHÖU  |  |  |  |  |  |
| Discharge Connection |              |                  | JIS 10K Flange  |  |  |  |  |  |

## Dimensions in mm:

In the event of abrasive and corrosive utilization, stronger wear and tear will take place naturally in certain components. In this regard, please pay attention to our website www.tsurumi.eu/english/applications.htm.
