

Pump with agitator - for professional use

Forced agitation

The agitator installed on the motor shaft extension forcibly agitates the fluid for easy and efficient transmission of sludge and slurry.

Rugged

By offering a cast iron pump body, our durability is increased over standard aluminium body pumps.

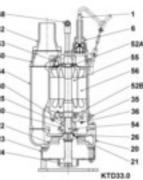

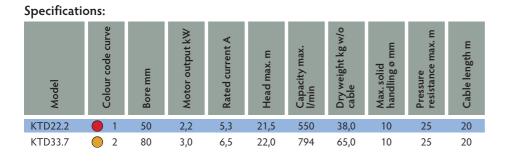

Efficient motor cooling

Slim line design with a top discharge offers economy of space. There is efficient motor cooling through a side flow channel.

Components:

00	1	Cable	036	Lubricant	
00	6	Cable entrance	050	Motor cover	68-
02	0	Pump casing	052A	Upper bearing	32
02	1	Impeller	052B	Lower bearing	53
02	2	Suction plate	053	Motor protector	64
02	3	Strainer	054	Shaft	60
02	4	Agitator	055	Rotor	25
02	5	Mechanical seal	056	Stator	30
02	6	Oil sealing	060	Bearing housing	22
03	0	Oil lifter	064	Motor casing	23
03	2.	Outlet	068	Handle	
03	5	Oil plug

W1: lowest running water level

In the event of abrasive and corrosive utilization, stronger wear and tear will take place naturally in certain components. In this regard, please pay attention to our website www.tsurumi.eu/english/applications.htm.

Contributing to World-wide Prosperity and Understanding through Worker- and Environment-friendly Production.

Designed for increased productivity through fully integrated streamlined production systems, Tsurumi 's factory in Kyoto (Japan) features a production capacity of a full 1 million pumps per year. Large-scale modern R&D facilities offer optimum conditions for experimenting and testing of even super-large pumps and for developing new products to expand the possibilites and applications of pumps. To provide optimum conditions for our main asset, our workers, as well as for the environment, special emphasis is placed on optimized working conditions with airconditioning, minimized dust and exhaust gas emission, comprehensive recycling and waste recovery.

Tsurumi (Europe) GmbH

Wahlerstr. 10 D-40472 Düsseldorf Tel.: +49 (0)211-4179373 Fax: +49 (0)211-417937-480 Email: sales@tsurumi.eu www.tsurumi.eu

We reserve the right to change specifications and designs herein for improvement without prior notice. Our pumps are for professional use only. In the event that Tsurumi (Europe) GmbH have, in exceptional cases taken over, a manufacturer's warranty, this entitles the enduser to assert remedy free of charge against Tsurumi (Europe) GmbH due to any defect to the product occurring during the guarantee period (see below), also then when the warranty claims against the seller do not or no longer exist. In the event of malfunction, which is attributable to the improper handling by the enduser, no guarantee claim shall arise. Further claims shall not result from the warranty, unless if something to the contrary has explicitly been determined. The decision as to whether remedy is effected by way of replacement or repair shall be at the choice of Tsurumi (Europe) GmbH. The claims shall be time barred after a period of three months after expiry of the guarantee period, however, not before expiry of the warranty period which is valid towards the end-user and his seller.
